

FLAT TWINE®

Is a great portable vise for all woodworking projects
Hold your project together while the glue is drying – no clamp marks
on the wood & no residue no matter how long you leave it on

- No need for multiple sized and styles of clamps
- No more hassle trying to attach clamp/vise to project or table
- No sticky residue or adhesive – sticks only to itself
- Easy one hand application, easy to get the right tension

Plus it is so useful in the house, yard, attic, and on the road...

Better than tape, twine, string, and even boxes
Unique handle on every roll for tight hold every time
300% stretch – equals over 10 rolls of duct tape
Easy to apply, easy to remove
