

Stretch Film for Palletizing

Industry Standard Film

F18SF3

18" x 1500'

4 rls/cs

- Best selling, hand applied, general purpose stretch film
- Classic blown film known for its strength & toughness
- High puncture and tear resistance – ideal for heavy loads
- Great stretch and great cling – holds in shipping & storage
- Easy to use with or without a dispenser
- Strong hold and good around corners – great for uneven pallets

Hybrid, Pre-Stretch Film

F18BASIC

444 mm x 450 M
(equivalent to 18" x 1500')

4 rls/cs

- Lighter weight roll – easy to handle, less operator fatigue
- Reinforced edges for tear resistance – no nicks or frays
- Economical alternative to standard film for many applications
- Core extends ½" above film – easy to grip without a dispenser
- Stiff product with little neck down in application
- Apply walking forward – "snug & tug" along sides for tight hold
